Diagnosis Page

GP DIAGNOSIS SEARCH

Software: Medical Director

Version: 3.16b (3.16.16.10323)

Diagnosis is retrieved from the [CONDITION] column that is saved to the [MD\_History] table.

Whether the diagnosis is active or inactive is defined by the [ACTIVE] column on the [MD\_History] table.

This is populated from the "Patient\Past History" screen.

Year	Date	Condition	Side	Status
2003	17/07/2003	Asthma		Inactive
2004	23/02/2004	ASTHMA		Inactive
2007	22/03/2007	URTI		Active
2011	10/06/2011	Fracture		Active
2012	25/06/2012	Check up		Active
2016	25/10/2016	Check up - Normal		Active
2016	03/11/2016	Depression		Active
2016	03/11/2016	Diabetes		Active

Software: Best Practice

Version: Summit 2014 Build 1.8.4.642

Diagnosis is retrieved from the [ITEMTEXT] column that is saved to the [PASTHISTORY] table.

This is populated from the "Past History" section.
